Impact of COVID-19 Pandemic

- In 4Q, travel demand fell sharply due to the COVID-19 pandemic, and is predicted to become much worse during and after April.
- Although there will be some difference between domestic and outbound travel, it is expected to prolong until the recovery of travel as before.
 - * See Page 5 "Impact of COVID-19 Pandemic."

Results for FY2020 March

- Sales: 4,936 million yen (down 0.7% YoY); operating profit: 1,538 million yen (down 9.7% YoY)
- Impacted by sharp drop of travel demand due to the COVID-19 pandemic in 4Q, sales remained at the same level YoY while operating profits decreased by 164 million yen YoY.
- Sales promotions, including TV commercials, were run as planned, and the selling, general and administrative expenses increased by 95 million yen YoY.
- According to a February 2020 survey, the recognition rate was 45.8% compared with the full-year target of 47.0% or higher for FY2020 March.
- The pace of recognition rate increase through TV commercials slows down as the rate approaches its upper limit (70% as estimated value). In contrast, the brand retention rate (total contact number to commercials per person) as a major brand rises. Accordingly, the number of unique users is expected to continue increasing.

Financial Projections for FY2021 March

- Financial Projections for FY2021 March are yet "to be determined" at the present moment, and will be announced when they become reasonably predictable.
- Despite the situation, due to our stable financial background, we have accelerated the development speed and strive to enhance competitiveness towards the recovery phase of tourism demand.

*FY2020 March: Capital-to-asset ratio is 90.8%; Cash and deposits balance at the end of the period is approx. 5.6 billion yen; Cost of Sales and Selling, General and Administrative Expenses (excluding advertising costs) are approx. 1.8 billion yen

- 4. FY2020 March: Main Initiatives
- 5. FY2021 March: Financial Projections
- 6. Main Future Initiatives
- 7. Reference Materials

- According to Japan Tourism Agency's "Preliminary Report on Travel Services Provided by the Major Travel Agencies," for February, as tours were postponed or cancelled by the outbreak of COVID-19, both overseas travel and domestic travel decreased greatly as compared with the same month of the previous year (a larger drop is expected for March).
 *"Total" on the chart indicates total sales calculated by our company by combining overseas and domestic travel sales of major travel agencies.
- In 4Q, travel demand fell sharply due to the COVID-19 pandemic, and is predicted to become much worse during and after April.
- Although there will be some gap in the degree of damage between Japan and overseas, it is expected to take a long time until people become able to travel as before.
- Sharp drop of travel demand caused by COVID-19 pandemic adversely affects our business performance.

*Revised projections announced on November 8, 2019.

FY2020 March: Financial Overview / Trends in Quarterly Results

In ordinary times, sales tend to be high in 2Q and 4Q. This trend, however, changed greatly, due to the impact of the COVID-19 pandemic.

- Impacted by sharp drop of travel demand due to the worldwide pandemic of COVID-19, both sales and operating profits fell below the same period of the previous year.
- It was difficult to predict the outbreak of the novel corona virus at the time of placing an order for TV commercials for 4Q; the sales promotions, including TV commercials, were run as planned.
- Most of the advertising costs in the second half period (679 million yen) were used in 4Q, as we did not run TV commercials in 3Q.

| Unit: millions of yen | | | | |
|--|------------------------|------------------------|---------------------|--------|
| | 4Q FY2019/3 Results | 4Q FY2020/3 Results | Amount of change | YoY |
| Sales | 1,355 | 994 | -361 | -26.7% |
| Cost of sales | 165 | 151 | -13 | -8.2% |
| Gross profit | 1,190 | 842 | -347 | -29.2% |
| Selling, general and administrative expenses | 937 | 922 | -15 | -1.7% |
| Operating profit | 252 | -79 | -332 | - |
| Ordinary profit | 254 | -78 | -332 | - |
| Net incomes | 158 | -85 | -243 | - |
| Operating margin | 18.7% | -8.0% | -26.6P | - |

FY2020 March: Main Initiatives / Recognition Rate Raised through TV Commercials

- The recognition rate in February 2020 was **45.8%** compared with the full-year target of 47.0% or higher.
- The pace of recognition rate per commercials placement volume increase through TV commercials slows down as the rate approaches its upper limit (70% as estimated value). In contrast, the brand retention rate (total contact number to commercials per person) as a major brand rises. Accordingly, the number of unique users is expected to continue increasing.

Source: OpenDoor's own survey (February 2020)

Survey from a sample of 10,000 respondents: Males and females from across Japan ages 18 to 59 who have been on a trip that involved over night stay, for either private or business purposes.

FY2021 March: Financial Projections

As we cannot predict when the COVID-19 pandemic will settle, it is very difficult for us to properly and reasonably predict how much impact there will be on our plan for FY2021 March.

Therefore, financial projections for FY2021 March are yet "to be determined" at the present moment, and will be announced when they become reasonably predictable.

Future Impact of COVID-19 and Our Initiatives

At present (as of May 13, 2020), the global spread of COVID-19 seems to slow down. The situation, however, remains unpredictable. We see that it will take considerable time until the travel demand returns.

In the recovery phase, we expect that, initially, domestic demand will gradually increase and then overseas demand will rise a little later.

It is expected that there will be an increase in new travel style enabling tourists to be less likely to get infected and tour programs focusing on it.

Despite the situation, due to our stable financial background, our group accelerates the development speed and strive to enhance competitiveness, such as to take demand in the recovery phase and to enrich the service in response to new travel needs after the recovery.

* FY2020 March: Capital-to-asset ratio is 90.8%; Cash and deposits balance at the end of the period is approx. 5.6 billion yen; Cost of Sales and Selling, General and Administrative Expenses (excluding advertising costs) are approx. 1.8 billion yen

- 4. FY2020 March: Main Initiatives
- 5. FY2021 March: Financial Projections

6. Main Future Initiatives

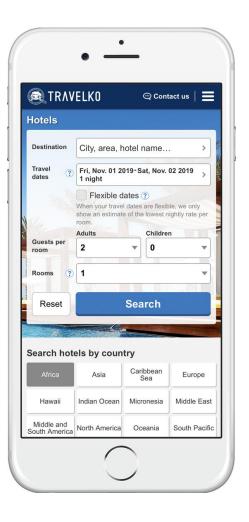

7. Reference Materials

- Run sales promotion including TV commercials in response to the market needs and government policies in the recovery phase
- Enrich new products and related information towards the post COVID-19 market
- Enhance existing products
- Increase the number of cities reviewed by travel experts and ranked in "Travelko Matome" (Travel blogs)
- Develop user review and evaluation services
- Expand the range of cross-comparison services (Vacation rentals, travel insurance, outdoor activity, etc.)

- Reinforcement of COVID-19 related information
- Establish price advantage by strengthening affiliation with local major websites
- Enhance localization of the user interface
- Release the TRAVELKO (Global site) app
- Provide system interface for inbound travel information
- Raise the recognition rate through sales promotion

A business model that allows the majority of travel products to be compared

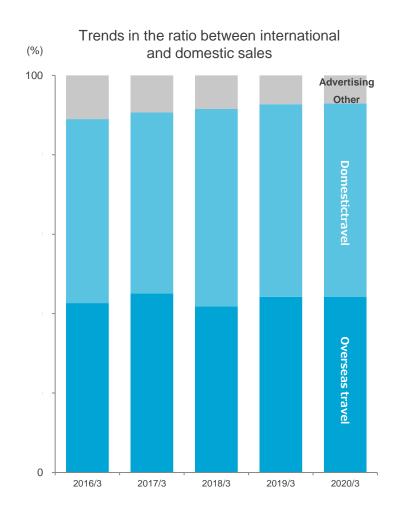

Shift from flat rate billing to measured rate billing based on results

Both international and domestic show a well-balanced risk-resilient sales structure.

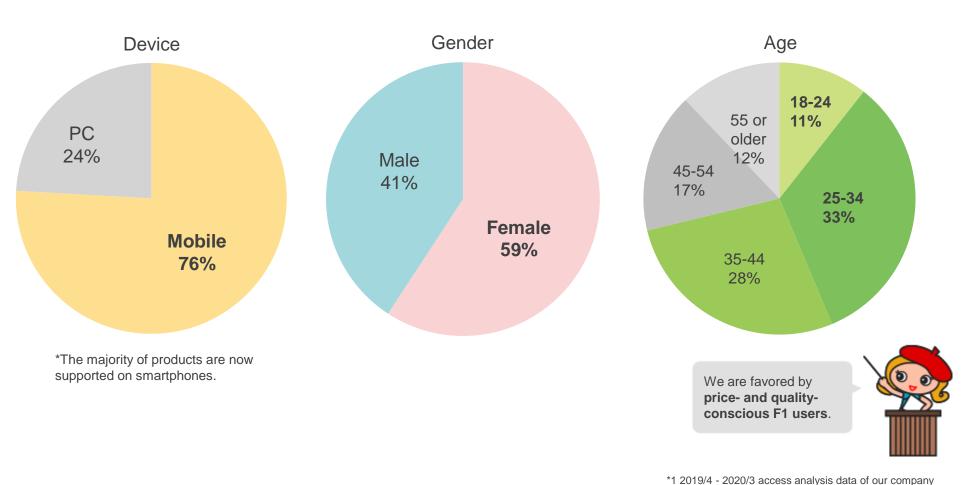

Flexibly corresponds to changes in market trends

due to changes in international or domestic popularity, or because of sudden events such as terrorist attacks, etc.

A structure that is resistant to exchange-rate fluctuations

Travelko / User Attributes

Of particular note is the fact that price- and quality-conscious F1 users (females aged 20-34) account for a large proportion.

User attributes*1

OPENDOOR

Why has Travelko been able to maintain a high rate of growth with the support of a broad range of users when there are so many other comparison sites in the market?

1. Covers the vast majority of travel products

While many competing sites focus on comparison of only single products, such as hotels or airlines, Travelko covers nearly all domestic and international travel products, including hotels, airline tickets, package tours, optional tours, car rental, overnight buses, and overseas Wi-Fi rental.

This makes Travelko a one-stop solution where users can plan their entire trips.

| International travel comparison | | | | |
|---------------------------------|---------------------------|-------------------------|--|--|
| Hotels | Flight and hotel packages | Discount air tickets | | |
| Optional tours | Package tours | Wi-Fi rental | | |

| Domestic travel comparison | | | | | |
|----------------------------|---------------------------|----------------------------------|--|--|--|
| Hotels | Flight and hotel packages | Discount air tickets | | | |
| Optional tours | Package tours | Highway buses Overnight buses | | | |
| Rental cars | | | | | |

2. Can be used to find the most inexpensive packages and tickets

Travelko, which enables comparison of more than 1,500 travel sites, offers one of the largest numbers of comparable plans in Japan. This naturally increases the likelihood of users finding the most affordable products that satisfy their needs. In addition, travel sites do not provide plans with uniform pricing to all comparison sites. Often, they offer lower prices to the more price-competitive sites.

This is why Travelko, with its overwhelming advantage in the number of travel sites and its high price competitiveness, makes it easy to find the most affordable products.

> JTB, Club Tourism, JAL Pak, Odakyu Travel, JR Tokai Tours, Kinki Nippon Tourist, Nippon Travel Agency, H.I.S, Tobu Top Tours, Hankyu Travel, ANA Sales, Nishitetsu Travel, Meitetsu World Travel, Tabikobo Rakuten Travel, Ikyu, Rurubu Travel, Yahoo Travel Expedia, Booking.com, Hotels.com AirTrip, Spring Japan, Skyticket, Star Flyer, AIRDO

...More than 1,500 travel sites

Why has Travelko been able to realize these strengths?

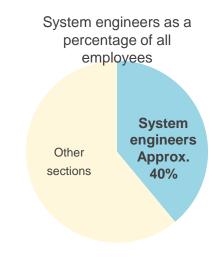

Nearly all system development is carried out in-house

Advanced, large-scale system development is essential to covering this many travel products, linking more than 1,500 travel sites, and improving all of these products simultaneously.

Most competitors outsource development, which ultimately makes it difficult to carry out development in exactly the way they want to because they must depend on the resources, skills, schedules, and priorities of their subcontractors.

We carry out nearly all system development in-house, in a flexible and efficient development environment made up of more than 70 system engineers who share information daily and keep up with the latest market trends. This has enabled us to realize a development structure that can realize simultaneous progress in all of our products at high speed, while also maintaining high quality.

This high level of development capabilities is another important reason behind our strengths.
