Key Strategies for FY2020 March

- The most recently announced full-year projections remain.
 Sales: 5,400 million yen (up 8.7% YoY); operating profit: 1,770 million yen (up 3.9% YoY)
- Continuing to attach paramount importance to the recognition rate in FY2020 March, we aim to achieve a rate of 47.0% or higher through TV commercials and other media.
- Financial results for 1H of FY2020 March were lower than initial projections owing mainly to slackening travel demand and less organic search visits deriving from increasing search engine advertising. Considering that in addition to these factors, the adverse effects of the occurrence of massive typhoons and the consumption tax increase may further dampen the travel market in 2H, we revised our consolidated financial projections for FY2020 March when we announced financial results for 2Q (November 8, 2019).
 *These negative factors are expected to have only a limited effect on medium- to long-term growth.

Results for 3Q FY2020 March

Accounting period (October to December)

- Sales: 1,156 million yen (up 4.1% QoQ); operating profit: 630 million yen (up 21.6% QoQ)
- Despite slackening travel demand caused by the unsettled state of the world, massive typhoons, the consumption tax increase, etc. as well as less organic search visits deriving from increasing search engine advertising, both sales and operating profit increased from the same period of the previous year. (Quarterly operating profit hit an all-time high.)
- Because we aired no TV commercials during 3Q, selling, general and administrative expenses decreased.

Cumulative period (April to December)

- Sales: 3,942 million yen (up 9.1% YoY); operating profit: 1,617 million yen (up 11.5% YoY)
- Although earnings performance was affected by changes in the external environment, both sales and operating profit for the 3Q cumulative period hit record highs.
- TV Commercials
- New Travelko TV advertising, Presentation Edition, started to be broadcasted from January 2020. (As of September 2019, the recognition rate was 44.3%.)

Shareholder Returns

• In addition to the current shareholder benefit (1,000-yen worth of QUO card), we will offer a special shareholder benefit (2,000-yen worth of QUO card).

*Revised projections announced on November 8, 2019.

OPENDOOR

OPENDOOR

- Quarterly operating profit hit an all-time high.
- In FY2020 March, large quarterly sales are expected in 2Q and 4Q as usual in the past.

Sales Operating profit Unit: millions of yen 5,400 1,489 1,388 1,355 1,296 1,179 1,156 1,114 1,110 1,036 907 886 875 768 704 687 630 645 648 590 558 1.770 518 544 476 456 428 426 362 329 306 252 278 226 240 188 188 166 158 131 1Q 1Q 2Q 3Q 4Q 1Q 2Q 3Q 4Q 2Q 3Q 4Q 1Q 2Q 3Q 4Q 1Q 2Q 3Q 4Q Revised full-year projections* FY2016-March FY2020-March FY2017-March FY2018-March FY2019-March

* Revised projections announced on November 8, 2019.

FY2020 March Financial Projections / Profit and Loss Statement

- The most recently announced annual projections remain.
- Continuing to attach paramount importance to the recognition rate in FY2020 March, we aim to achieve a rate of 47.0% or higher through TV commercials and other media.

(As of September 2019, the recognition rate was 44.3%.)

• Financial results for 1H of FY2020 March were lower than initial projections owing primarily to slackening travel demand which occurred in reaction to rush demand before the 10-day Golden Week holiday period and because of the unsettled state of the world as well as less organic search visits deriving from increasing search engine advertising (*). Considering that in addition to these factors, the adverse effects of the occurrence of massive typhoons and the consumption tax increase may further dampen the travel market in 2H, we revised our consolidated financial projections for FY2020 March when we announced financial results for 2Q (November 8, 2019).

*Refer to "Year-on-Year Changes in Total Monthly Sales of Major Travel Agencies" on Page 18.

• The revision of financial projections was caused by changes in the external environment as mentioned above. Considering that we maintain higher ranking positions on search engine results pages and were awarded first place in various categories of a customer satisfaction ranking survey, we have a sustainable competitive advantage. Accordingly, we expect that the changes in the external environment will have only a limited impact on medium- to long-term growth.

Unit: millions of yen	FY2019/3 Results	2020/3 Revised full-year projections*	Amount of change	YoY
Sales	4,969	5,400	+430	+8.7%

1. Highlights

2. Third Quarter: Financial Overview

3. Third Quarter: Main Initiatives

4. Main Future Initiatives

- 5. Shareholder Returns
- 6. Reference Materials

- Increase recognition rate through TV commercials
- Enhance existing products
- Increase the number of cities reviewed by travel experts and ranked in "Travelko Matome" (Travel blogs)
- Develop user review and evaluation services
- Expand the range of cross-comparison services (Vacation rental, travel insurance, cruise, outdoor activity, etc.)

Main Future Initiatives / TV Commercials

- New Travelko TV advertising, Presentation Edition, started to be broadcasted from January 2020.
- To further raise the recognition rate in 4Q, we will launch efficient advertising campaigns taking travel demand trends into consideration.

Travelko-chan – Presentation Edition –

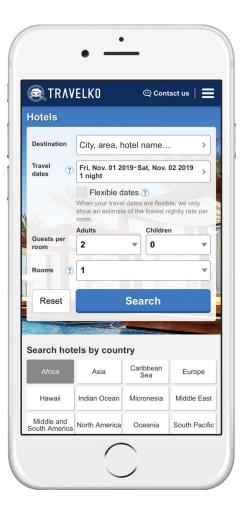

*Image is for illustration purposes.

Travelko enables users to compare more than 1,500 travel sites to find the most affordable domestic and overseas travel products that satisfy their needs.

Travelko-chan explains in an understandable way a lot of advantages of Travelko in a presentation made at a large venue.

OPENDOOR

- Establish price advantage by strengthening affiliation with local major websites
- Enhance localization of the user interface
- Release the TRAVELKO (Global site) app
- Provide system interface for inbound travel information
- Raise the recognition rate through sales promotion

Year-on-Year Changes in Total Monthly Sales of Major Travel Agencies

- Japan Tourism Agency's "Preliminary Report on Travel Services Provided by the Major Travel Agencies" reveals that of total monthly sales of major travel agencies for the period of April-November 2019, sales of both overseas and domestic travels had shown a declining trend since May and decreased from a year earlier since June except for September.
- Sales for April were affected by the 10-day Golden Week holiday period.
- * Most of the Company's sales are recorded based on booking dates. Thus, the Company records sales earlier than major travel agencies, whose sales are recorded based on starting dates.
- * "Total" on the chart indicates total sales calculated by the Company by combining overseas and domestic travel sales of major travel agencies.

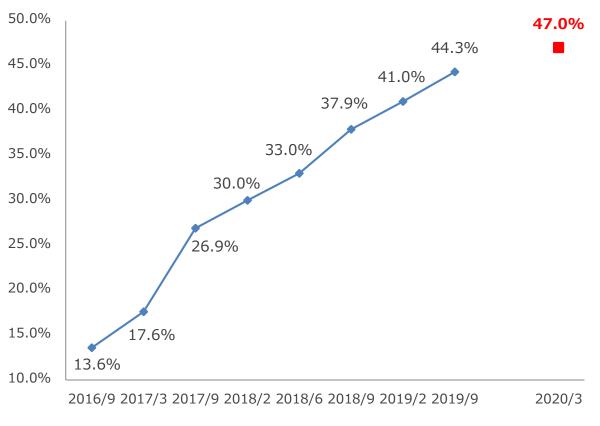

Year-on-Year Changes in Total Monthly Sales of Major Travel Agencies

Source: Compiled by the Company based on Japan Tourism Agency's "Preliminary Report on Travel Services Provided by the Major Travel Agencies."

3Q FY2020 March / Recognition Rate Raised through TV Commercials (As of September 2019)

• The recognition rate in September 2019 was 44.3% compared with the full-year target of 47.0% or higher.

Source: OpenDoor's own survey (September 2019)

Survey from a sample of 10,000 respondents: Males and females from across Japan ages 18 to 59 who have been on a trip that involved over night stay, for either private or business purposes.

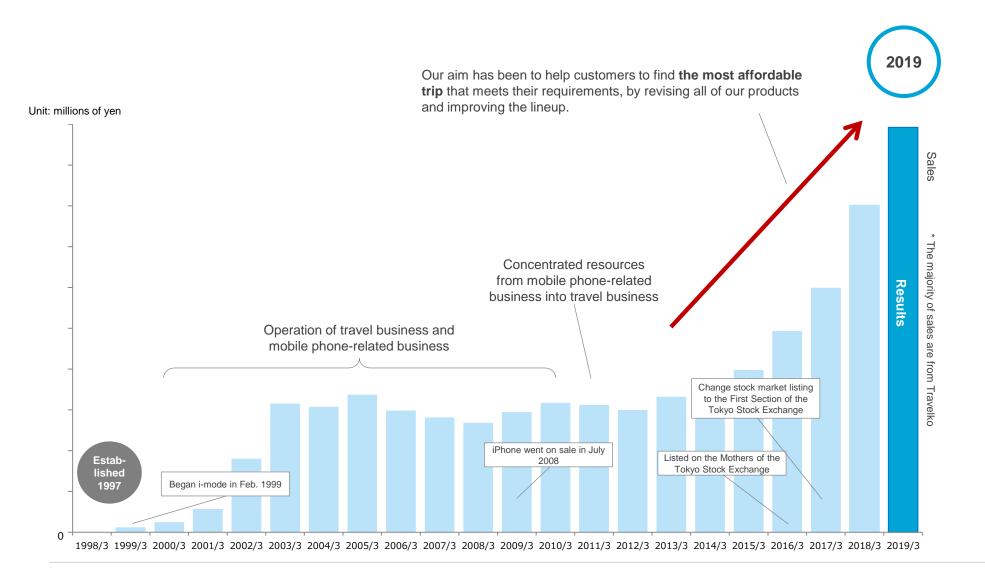

• Financial results show a steady performance, with an 812 million yen increase in net assets.

A business model that allows the majority of travel products to be compared

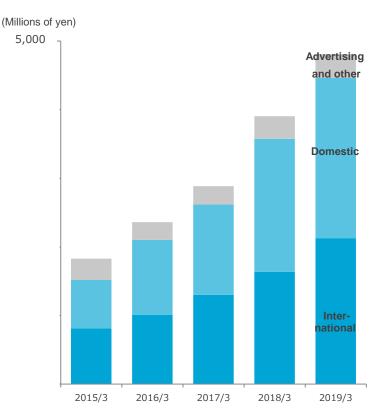

Shift from flat rate billing to measured rate billing based on results

Travelko / Trends in the Ratio Between International and Domestic Sales

Both international and domestic sales increasing; a well-balanced risk-resilient sales structure.

Trends in the ratio between international and domestic sales

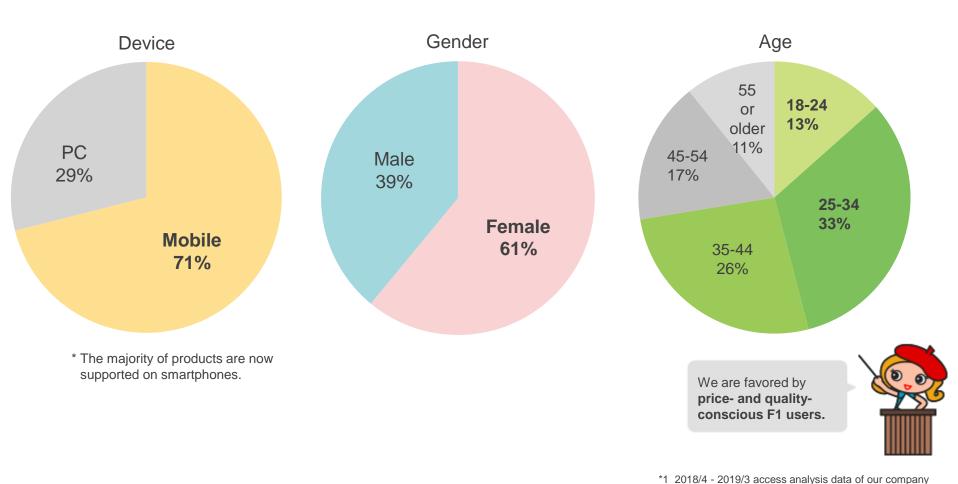

Flexibly corresponds to changes in market trends

due to changes in international or domestic popularity, or because of sudden events such as terrorist attacks, etc.

A structure that is resistant to exchange-rate fluctuations

Travelko / User Attributes

Of particular note is the fact that price- and quality-conscious F1 users (females aged 20-34) account for a large proportion.

User attributes*1

OPENDOOR

Why has Travelko been able to maintain a high rate of growth with the support of a broad range of users when there are so many other comparison sites in the market?

1. Covers the vast majority of travel products

While many competing sites focus on comparison of only single products, such as hotels or airlines, Travelko covers nearly all domestic and international travel products, including hotels, airline tickets, package tours, optional tours, car rental, overnight buses, and overseas Wi-Fi rental.

This makes Travelko a one-stop solution where users can plan their entire trips.

International travel comparison							
Hotels	Flight and hotel packages	Discount air tickets					
Optional tours	Package tours	Wi-Fi rental					

Domestic travel comparison									
Hotels	Flight and hotel packages	Discount air tickets							
Optional tours	Package tours	Highway buses Overnight buses							
Rental cars									

2. Can be used to find the most inexpensive packages and tickets

Travelko, which enables comparison of more than 1,500 travel sites, offers one of the largest numbers of comparable plans in Japan. This naturally increases the likelihood of users finding the most affordable products that satisfy their needs. In addition, travel sites do not provide plans with uniform pricing to all comparison sites. Often, they offer lower prices to the more price-competitive sites.

This is why Travelko, with its overwhelming advantage in the number of travel sites and its high price competitiveness, makes it easy to find the most affordable products.

Nearly all system development is carried out in-house

Advanced, large-scale system development is essential to covering this many travel products, linking more than 1,500 travel sites, and improving all of these products simultaneously.

Most competitors outsource development, which ultimately makes it difficult to carry out development in exactly the way they want to because they must depend on the resources, skills, schedules, and priorities of their subcontractors.

We carry out nearly all system development in-house, in a flexible and efficient development environment made up of more than 70 system engineers who share information daily and keep up with the latest market trends. This has enabled us to realize a development structure that can realize simultaneous progress in all of our products at high speed, while also maintaining high quality.

This high level of development capabilities is another important reason behind our strengths.

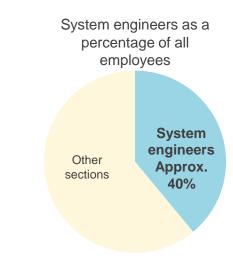

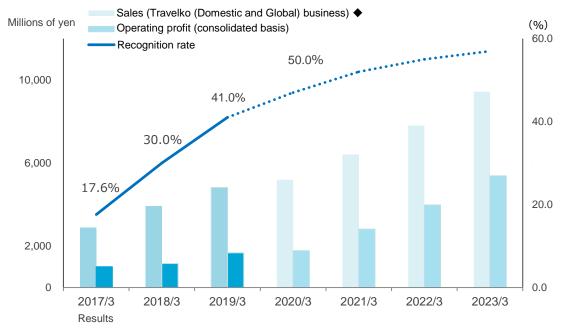

Image of Mid-term Growth in Travelko Business

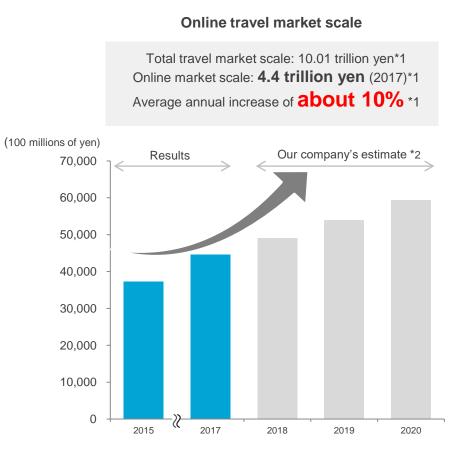

- The recognition rate of the top brand in the travel industry is approximately 70%. Travelko aims to achieve a recognition rate of 50% by the end of FY2020 March.
- The number of unique users that has a direct impact on sales is considered to grow at a rate proportional to the recognition rate and brand awareness (brand penetration). Accordingly, an increase in the recognition rate is expected to be followed by an increase in sales.
- The pace of recognition rate increase through TV commercials slows down as the rate approaches its upper limit. In contrast, the pace of brand penetration accelerates. Accordingly, the number of unique users is expected to continue increasing.
 - * A certain level of investment in mass advertising is expected to continue to maintain brand awareness.
 - ** For sales to grow in proportion to the recognition rate, in addition to the above, it is important that products are price competitive. This is one of the company's strengths and is likely to be maintained in the future as well.

Because almost all sales currently arise from the Travelko (Domestic and Global) business.

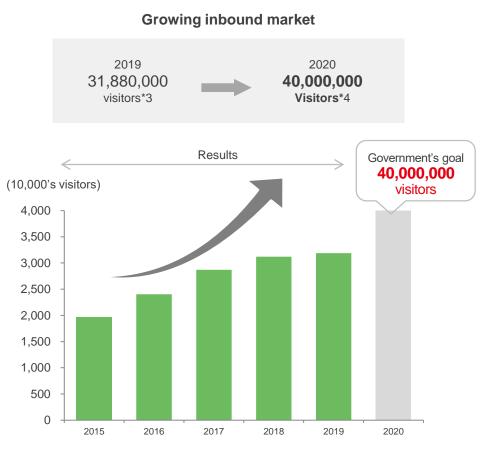

◆ ◆The graph is an impression

Growth of online/inbound travel markets is expected to continue.
