Travelko launches AI-driven Q&A feature

OpenDoor Inc. (Minato-ku, Tokyo; President and CEO: Daisuke Sekine), which operates Japan's leading travel comparison site "Travelko" (<https://www.tour.ne.jp/>), launched a new AI-powered Q&A feature on June 4, 2025.

AI technology enables easy searching for highly relevant Q&As using entered keywords and text

If entered keywords were not registered in the Q&A content text or its associated dictionary words, users faced the challenge of not being able to display their desired Q&A. This new feature resolves that by enabling AI to analyze keywords and sentences entered by users, thereby displaying highly relevant Q&As. This feature is currently available on Travelko's website (PC and smartphone versions) and app versions (iOS and Android).

Travelko Q&A Feature (PC and Smartphone versions)

We will continue to actively integrate AI technologies

Moving forward, we will progressively introduce AI into functions such as product search and will continue to actively incorporate the latest AI technologies to provide users with even more convenient and valuable services. Please look forward to our future developments.

■ About Travelko (Japanese Site)

Travelko (<https://www.tour.ne.jp>) is one of Japan's largest travel comparison platforms, enabling users to compare travel offerings from more than 1,500 domestic and international travel sites. The service covers a wide range of travel products, including domestic and international hotels, airline tickets, package tours including packages such as hotel & flight and Shinkansen & flight, optional tours, domestic rental cars, highway buses, overseas Wi-Fi routers, and international travel insurance, making it easy for users to find the lowest priced products that meet their needs.

About OpenDoor Inc.

President and CEO: Daisuke Sekine
